

# Environment & Natural Resources Committee

---

## Vision

The Environment & Natural Resource Vision for CMAP is to:

- promote ecological awareness and stewardship of environmental resources,
- support regional collaboration and support adoption of best practices

## Committee Charge

The charge to this committee is to provide advisory input to the CMAP board on proposed regional plans, projects, and policies by:

- Providing the Board with guidance that conveys an environment and natural resource based perspective,
- Provide environment and natural resource expertise and input to conduct effective land use and transportation planning, and
- Prioritize environment and natural resource projects, identify and understand regional needs, challenges and solutions.

# Housing Committee

---

## Committee Charge

The charge to the CMAP housing committee is to provide advisory input to the CMAP board on proposed regional plans, projects, and policies by:

- Providing the Board with guidance that conveys a housing based perspective,
- Provide housing expertise and input to conduct effective land use and transportation planning, and
- Prioritize housing-related projects, identify and understand regional needs, challenges and solutions.

# Human Services Committee

---

## Vision

- Enhancing the regional quality of life by being the objective source of information, expertise and policy perspectives for human service issues (e.g. health care, aging, disability, safety) with a regional scope.

## Committee Charge

The charge to the CMAP human services committee is to provide advisory input to the CMAP board on proposed regional plans, projects, and policies by:

- Providing the Board with guidance that conveys a Human Services based perspective,
- Providing Human Services expertise and input to conduct effective land use and transportation planning, and
- Prioritize Human Services-related projects, identify and understand regional needs, challenges and solutions.
